

CV

Magdalena Homel

→ *I'm driven by curiosity and the need to create things that make sense for people, not just systems. I love working with others who are open, sharp, and not afraid of asking "what if?"*

Education

Oct 2024 – present (expected graduation: June 2027)

Jagiellonian University, Kraków

Bachelor's degree in Cognitive Science

Interdisciplinary field combining cognitive psychology, computer science, and neuroscience focused on how people think, decide, and interact with technology.

Work Experience

Feb 2026 – present

UX Researcher | Fundacja Kompetencji Cyfrowych | Remote

- Designed and conducted **qualitative research** (interviews, desk research) for two NGOs within the Strona od Nowa program, delivering structured reports with UX and content recommendations
- Led** digital maturity research project - **developed research plan**, defined evaluation and discovery questions, selected **mixed methods (qualitative interviews + quantitative survey)**
- Conducted **SEO** audit using Google Search Console, identified key traffic patterns and domain visibility issues, presented findings to the team

Feb 2026 – May 2026

Mentee | Tech Leaders | Remote

- Participated in a 4-month **individual mentoring program** focused on **UX Research and AI**, within one of Poland's largest mentoring initiatives for people in tech

Nov 2025 – Apr 2026

Junior AI Engineer | OMNIVISER | Remote

- Collaborated on improvements to **user experience** in a product powered by **LLMs**, including enhancements to **chatbot performance and usability**.
- Supported optimization of **conversational logic** and product **workflows** to better reflect **user needs and behavior**.
- Participated in **testing** and **QA** of **AI-driven features**, focusing on **stability, clarity** and **user-facing functionality**.

Aug 2025 – Nov 2025

Intern | OMNIVISER | Remote

- Contributed to a strategic **open-source initiative** by supporting the development of **scalable AI orchestration workflows** used in a **real production environment**.
- Supported system stability and reliability** by working carefully within existing system components and validation mechanisms.
- Maintained high code quality standards** by following established **review and CI/CD processes** in **Azure DevOps**, contributing to smooth and consistent deployments.

Sep 2025 – Dec 2025

Google Student Mentoring Program | Google | Warsaw

- Selected as one of **20 participants nationwide** for a **selective mentoring initiative** offering close guidance.
- Took part in **1:1 mentoring** focused on **career development, decision-making** and navigating **complex tech environments**.
- Engaged in **peer discussions** and **workshops** that strengthened **critical thinking, communication** and **collaboration skills**.

Additional Activity

Jun 2022 – present

Active Member | Volunteer Fire Brigade

Participated in **municipal and county firefighting competitions**, earning **1st place** in the women's team category **twice**. Cultivated **rapid decision-making, resilience** and a strong sense of **personal responsibility** within a high-performance unit, where precise **teamwork** determines success.
